SUMMARY

Full-stack developer experienced in independently delivering production web and mobile applications. Skilled in building CMS-driven platforms, API architectures, SaaS products, and performance-optimized websites using Next.js, React Native, Node.js, and MongoDB.

TECHNICAL SKILLS

Frontend	React.js, Next.js (App Router, SSR, SSG, ISR), React Native, Redux, Tailwind CSS
Backend	Node.js, Express.js, RESTful APIs, Firebase, Cron Jobs, Web Scraping
Languages	JavaScript (ES6+), TypeScript
Database/DevOps	MongoDB (Mongoose), Docker, CI/CD (GitHub Actions), Git, Vercel, Postman

WORK EXPERIENCE

- Associate Software Developer - Olio Global AdTech LLP, Mumbai** Nov 2024 – Present
- iTPreneur (EdTech & Placement Platform)** : Delivered CMS-driven platform managing **20+ dynamic course pages**, blog engine, event calendars, newsletters, and placement drives — all backend-configurable with **zero frontend redeployment**. Streamlined content publishing workflows, reducing admin turnaround time by **60%** through admin interfaces and API-driven content delivery. Implemented SEO-optimized dynamic page generation with structured data markup, improving organic search visibility by **30%**. Engineered student enquiry capture with automated email notifications and backend persistence.
 - NovoGrad.ai (Scholarship & Education Platform)** : Engineered centralized scholarship discovery platform aggregating **1,000+ scholarships** via automated data scraping pipelines processing **50+ external sources** on scheduled cron jobs. Developed backend-controlled CMS powering blogs, partner university listings, expense calculators, and dynamic multi-step student forms with client-side validation. Built lead acquisition pipelines capturing **2,000+ student enquiries/month** with role-based administrative dashboards, Redux-driven state management, and paginated RESTful API architecture. Reduced data retrieval latency by **45%** through MongoDB indexing and query optimization.
 - RheinMain - Ueberdachungen & Atlas Technology** : Architected 2 Next.js platforms with **SSR + SSG** rendering **500+ product pages** through dynamic catalogs with multi-level spec- and category-based filtering. Engineered API-driven product configurators and end-to-end lead capture workflows, increasing inbound lead conversion by **35%** with durable backend persistence. Optimized **Core Web Vitals (LCP, FCP, CLS)**, reducing page load from **3.2s to 0.9s (72%)**, achieving **90+ Lighthouse scores**. Implemented lazy loading, image optimization, and code splitting to reduce bundle size by **40%**.
 - In-House HRMS (SaaS Platform)** : Delivered full-stack SaaS HR system with Next.js web dashboard and React Native mobile application serving **100+ employees**. Engineered policy-driven workflows for attendance, leave, and payroll with **geo-location-validated** check-in/check-out reducing manual errors by **50%**. Implemented **5+ cron-based background automation jobs** for payroll calculations, leave balance updates, and report generation. Built RBAC with JWT authentication and org-wide analytics dashboards reducing HR reporting time by **40%**.

EDUCATION

Master of Science in Computer Science — <i>3rd Rank</i>	2022 – 2024
SSVPS Science College, Dhule	CGPA: 9.02
Bachelor of Science in Computer Science — <i>1st Rank</i>	2019 – 2022
SSVPS Science College, Dhule	CGPA: 9.42

PROJECTS

Bento — Project Management Platform (Linear.app Clone) 🌱

Full-featured project management platform with Next.js, TypeScript, and real-time collaboration via WebSockets. Drag-and-drop Kanban boards, sprint planning, issue tracking, team assignment, and project roadmap visualization.

E-Commerce Platform (Full-Stack Online Store) 🌱

MERN stack e-commerce platform with JWT + bcrypt auth, Stripe payments, product catalog with search/filtering, cart, and order tracking. Admin dashboard for inventory, order processing, and user analytics with Nodemailer notifications.
