SUMMARY

Full-Stack Developer with a bias for end-to-end ownership – system design, REST API architecture, microservices, and CI/CD deployment, not just tickets to done. Specializes in Next.js, React Native, and Node.js; delivers across web, mobile, backend, and DevOps independently with measurable impact at every layer.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, SSR, SSG, ISR), React Native, Redux, Tailwind CSS, WebSockets

Backend: Node.js, Express.js, REST API Design, GraphQL, Microservices, Firebase, Redis, BullMQ, Cron Jobs

Languages: JavaScript (ES6+), TypeScript

Databases & DevOps: MongoDB, PostgreSQL, Redis, SQL, NoSQL, Docker, CI/CD (GitHub Actions), Git, GitHub

WORK EXPERIENCE

Software Developer – Olio Global AdTech LLP, Mumbai

Nov 2024 – Present

- iTPreneur (EdTech and Placement Platform):** Delivered CMS-driven platform managing **20+ dynamic course pages**, blog engine, event calendars, newsletters, and placement drives – all backend-configurable with **zero frontend redeployment**. Streamlined content publishing workflows reducing admin turnaround time by **60%** through admin interfaces and REST API-driven content delivery. Implemented SEO-optimized dynamic page generation with structured data markup, improving organic search visibility by **30%**. Engineered student enquiry capture with automated email notifications and NoSQL backend persistence.
- NovoGrad.ai (Scholarship and Education Platform):** Engineered centralized scholarship discovery platform aggregating **1,000+ scholarships** via automated data scraping pipelines processing **50+ external sources** on scheduled cron jobs. Developed backend-controlled CMS powering blogs, partner university listings, expense calculators, and dynamic multi-step student forms with client-side validation. Built lead acquisition pipelines capturing **2,000+ student enquiries/month** with role-based administrative dashboards, Redux-driven state management, and paginated REST API architecture following Agile/Scrum sprint cycles. Reduced data retrieval latency by **45%** through MongoDB (NoSQL) indexing and PostgreSQL (SQL) query optimization.
- RheinMain - Ueberdachungen and Atlas Technology:** Architected 2 Next.js platforms with **SSR and SSG** rendering **500+ product pages** through dynamic catalogs with multi-level spec- and category-based filtering. Engineered REST API-driven product configurators and end-to-end lead capture workflows, increasing inbound lead conversion by **35%** with durable backend persistence. Applied system design and performance optimization to **Core Web Vitals (LCP, FCP, CLS)**, reducing page load from **3.2s to 0.9s (72%)**, achieving **90+ Lighthouse scores**. Implemented lazy loading, image optimization, and code splitting to reduce bundle size by **40%**.
- OlioHR (SaaS Platform):** Architected production-grade multi-tenant SaaS HRMS using microservices and scalable architecture across **275+ REST API endpoints** – covering payroll, attendance, leave, appraisals, and hiring for **1200+ employees**, delivered via **Next.js** web dashboard and **React Native** Android and web app with **geo-location-validated** check-in/check-out. Implemented scope-aware RBAC (global/department/team/self) with **AES-256-GCM** field-level encryption on all salary and payroll data, reducing unauthorized access surface by **100%**. Engineered timezone-aware attendance via **Haversine geofence detection**, DST-safe IANA offset computation, WorkPolicy snapshots frozen at clock-in for audit immutability – cutting manual HR errors by **50%**. Built rule-based notification engine with **BullMQ and Redis** job queues triggering event-driven alerts across attendance, leave, and payroll lifecycle, reducing HR reporting time by **40%**.

EDUCATION

Master of Science in Computer Science | 3rd Rank

2022 – 2024

SSVPS Science College, Dhule

CGPA: 9.02

Bachelor of Science in Computer Science | 1st Rank

2019 – 2022

SSVPS Science College, Dhule

CGPA: 9.42

PROJECTS

Bento – Project Management Platform (Linear.app Clone) [GitHub]

Full-featured project management platform with Next.js, TypeScript, and real-time collaboration via WebSockets. Drag-and-drop Kanban boards, Agile sprint planning, issue tracking, team assignment, and project roadmap visualization.

E-Commerce Platform (Full-Stack Online Store) [GitHub]

E-commerce platform with JWT and bcrypt auth, Stripe payments, product catalog with search/filtering, cart, and order tracking. Admin dashboard for inventory, order processing, and user analytics with Nodemailer notifications.
